Rate of Business Improvement Not Swift Enough to Prevent Disappointment.

NEW YORK, Jan. 13 .- The stock market today was of much the same character as yesterday. Periods of moderate strength and weakness alternated and the tone was spotty and tregular at all times. There were no effective demands in evidence such as would make an aggressive accumulation, but evidence of some support at a defined point in a decline gave the bears warning of obstacles to be encountered in too bold an attack on values. While this support appeared on the declines, any upward movement was likely to bring selling orgers into the market. The current supposition in the extension of the short imports in the last few days found no signs of uneasiness on the part of the uncovered bears to corroborate it, although part of the buying on declines was attributed to covering operations by bears. ter as yesterday. The sentiment amongst the professional operators was not optimistic, and the events of the day, while not of great importance, were construed unfavorably. The response of foreign markets to the news of the settlement between Austrialiumgary and Turkey was a disappointment. A decline in private discounts in Paris and a fall in the London price of gold were reflections of the relaxed tension of the situation. PRICES OF METALS IN NEW YORK MARKET

NEW YORK, Jan. 13.—The London tin market was a little higher, with spot quoted at £127 5s and futures at £128 17s 6d. The local market was quiet but

higher in sympathy with spot, quoted at \$27,95@28.15. \$27.95@28.15.

Copper was lower in London, with spot quoted at £62 2s 6d, and futures at £63. The local market was said to be weak in tone. It is reported that a large sale has been made for February shipment to Italy of electrolytic copper at \$14.50. Generally speaking, this is the price asked by the larger selling agencies for shipment in thirty days, but in the local cash market scattering lots can be secured at considerable concessions. On spot lake is quoted at \$14.576@14.621; electrolytic, \$11.123@14.25, casting, \$14@14.50.

Lecal was unchanged at £13 2s 6d in London, and \$4.172@4.222 in the local market.

CARLOAD OF ORANGES ARRIVE IN MARKET

Amount of Fruit for Zionites.

CHICAGO. Jan. 13.—Financial difficulties involving an influential grain concern at Duluth caused some signs of demoralization in the wheat pit at the opening, owing to the selling out of a long line of wheat held by that firm. Local bears took advantage of the situation

fornia. The fruit was a first-class variety and dealers offered it at 30 and 35 cents a dozen. A shipment of Newhall oranges is expected to arrive from the Golden state during the early part of next week. Oranges are now at their best, and the prices of the fruit are about as low as they may be expected to become this season. Navel oranges are now fairly plentiful and meet with a good demand.

Lemons are also coming in moderately free, and the fruit is more pientiful and of a better variety at the present time than it has been for some months past. Lemons are offered at 25 and 36 cents a dozen. So far this season there have been no seedless lemons on the market, but the dealers are expecting a consignment from California very shortly.

Apples continue plentiful and the demand for the fruit keeps up, and especially for the Belle Fleur apples is not as low as that of other varieties, it meets with a much better sale, owing to its good eating qualities. long line of wheat held by that firm. Local bears took advantage of the situation and pounded the market vigorously the first quarter of an hour, but were unable to force prices below the opening level, which was from it above to \$60\fo below the previous close. The attempt was made futile by the support given the market by the principal bulls, who took all offerings.

The market continued somewhat nervous the first half of the day, but the liberal purchases of the big holders gradually started covering by shorts, which eventually resulted in sharp upturns in the price of all deliveries. May option advanced 2c and the more distant deliveries rose 1@1\fo c. The smallness of primary receipts, the total arrivals being the smallest of the crop, aided the bulls in bringing about the rally.

A better demand for cash wheat had a strengthening influence. The market closed strong, with prices at the top, final quotations on May being \$1.06, and on July 97\fo c.

INTO AWAKENING CHINA

It is known by bullion dealers and transportation men in the foreign freight business that late last week 8,000,000 ounces of silver in ingots were shipped from this port to Ghina by way of San Francisco. Foreign freight agents say that the metal is to go to Shanghai for account of a syndicate of native Chinese bankers. It has been ascertained through the principal firms and corporations at this port which deal largely with China, that for months past advices from their correspondents at Hongkong, Shanghai. Canton and Peking state that the empire poorly provided with copper, silver and lead. The confused political conditions in the empire, with the consequent derangement of trade, are preventing the liberal buying of silver and copper by the viceroys for mining purposes and by native bankers for use as bar metal in bartering. Sixteen of the nineteen provincial mints of China have been closed since the death of the emperor and empress dowager, in accordance with a Manchu custom that interdicts the casting or stamping of coins for seven moons after the decease of the sovereign.—Wall Street Summary.
